

## SURGERY QUESTION BANK

### BHMS EXAM QUESTION PAPER

#### [NEW PROPOSAL ]

Surgery 3

Q 1] write appropriate answers [10 out of 15]

10x 2 =20 marks

1] define surgery ?

2] Define fracture? name two med

3] Define peptic ulcer?with two medicines

4] Name two causes of conjunctivitis?

5] What are the indications of appendicitis

6] Name 2 complication of mums ?mention two drugs for the same

7 ] name two symptoms of chicken pox ? mention one homoeopathic drug for the same

8]write 2 indication of cataract ? mention any one remedy for it ?

9] indication for gangrene with one homoeopathic remedy ?

10] Define tumors

11] Two causes of fractures

**12] 2 Symptoms of hemorrhage ?name one homoeopathic drug**

13] define injury and mention one drug for the same in homoeopathy

14 ]define ulcers ?

15] investigation for hepatitis

16]Define jaundice? name two med

17]write 2 indications of ars in gangrene

18]name two drugs for hemmoriads

20]name two drugs for keloid

- 21] define keloid
- 22]define gangrene
- 23] define nasal polyp
- 24] define appendicitis
- 25Follicular tonsillitis
- 26 Define Pharyngitis
- 27]define Ullergic rhinitis
- 28]define Mastoiditis
- 29] what is Hardness of hearing
- 30] define Lachrymal fistula
- 31] what do you mean by Toothache
- 32] what do you mean by Dental abscess
- 33] Pyorrhoea – define
- 34] Calibri (Body) – define
- 35] Varicose Ulcer – define
- 36] Ulcers - define
- 37] Ganglion- write name of two drugs
- 38] BURNS write name of two drugs
- 39]define epistaxis
- 40] mention two drugs for epistaxis
- 41] GOITRE – define
- 42] name two drugs of goiter
- 43] write two striking features for goiter
- 44] define hypothyrodium
- 45] define hyper thyrodinum

- 46] define cataract
- 47] explain two leading symptoms for cataract
- 48] name two drugs for cataract
- 49] Define glaucoma
- 50] mention names of two drugs for glaucoma
- 51] What do you mean by stye
- 52] Define stye
- 53] Name two drugs for stye
- 54] Write two symptoms for stye
- 55] What is conjunctivitis?
- 56] Name two drugs for conjunctivitis
- 57] Define fracture
- 58] Name types of fractures
- 59] What is Coley's fracture
- 60] define piles
- 61] Name two leading drugs for piles
- 62] What is ear wax
- 63] Define otitis media
- 64] Name two drugs for toothache
- 65] What is dental caries?
- 66] Name two drugs for ear pain
- 67] Define appendicitis
- 68] name one drug for appendicitis
- 69] what do you mean by sprain
- 70] define otitis media

71] name drugs for otitis

72]define phyringitis

73]name two drugs for phyringitis

74]define quincy

75] mention one drug for quincy

76]define renal colic

77] mention two drug for renal colic

78]define retention of urine

79] what is rule of nine

80] name two drugs of burns

81]name two surgery which can be treated without operation

82]name types of ulcers

Q 2] short answers [solve any 4 out 6 ] 4 x 5= 20

EXPLAIN THE FOLLOWING WITH ANY ONE HOMOEOPATHIC DRUG

1. Gangrene
2. Keloid
3. Ganglion
4. Management of a case of burns
5. Burns
6. Abscess
7. Fournier's gangrene
8. Sebaceous cyst
9. Acute abscess
10. Ingrowing Toe nail
11. Old abscess
12. Trophic Ulcer
13. Haemangioma
14. Paronychia
15. Peri-anal bleeding
16. Digital rectal examination
17. Transillumination

18. Shifting dullness
19. Retention of urine
20. Fistula in ano
21. Painless bleeding per rectum
22. I.V.P.
23. Teratoma of testis
24. Varicocele
25. Oesophageal varices
26. Seminoma testis
27. signs and symptoms of Thyrotoxicosis
28. Meckel's diverticulum
29. Breast abscess
30. Thyroglossal cyst
31. Fibroadenoma of breast
32. Abdominal paracentesis
33. Internal haemorrhoids
34. Cystoscopy
35. Amoebic liver abscess
36. Melanoma
37. Circumcision
38. Gall-stones
39. Gastritis
40. Varicose ulcer
41. Subphrenic abscess
42. Calcaneal spur
43. Volkmann's Ischaemic
44. Fracture mandible
45. Contracture
46. Supracondylar fracture of humerus
47. Myositis ossificans
48. Carpal tunnel syndrome
49. Colle's fracture
50. Ankle sprain
51. Tennis elbow
52. Epulis
53. Photophobia
54. Hypermetropia
55. Meibomian cyst
56. Lens implant in the eye
57. Chalazion
58. Cataract
59. Glaucoma

60. Pterygium
61. Stye
62. Keratoplasty
63. Meniere's disease
64. Deviated nasal septum
65. Quinsy
66. Peritonsillar abscess
67. Follicular tonsillitis
68. Nasal foreign bodies
69. Tracheostomy
70. Acute otitis media
71. Ear lobule repair
72. Dental abscess
73. Dentigerous cyst
74. Dental caries
75. Dental cyst.
76. Impacted molar
77. Eve's tumor
78. Post cibal syndrome

79] D/D of appendicitis mention 2 hom. drugs

80] complications of fractures and describe 2 drugs for the same?

81] mumps and its homoeopathic management

82] chicken pox causes and describe sulph for it

83] tumours ? describe cal flur for it in detail ?

84] D/D of eye pain and describe rust ox for pain ?

Q3] short answers [solve 4 out of 6 ]                      4x 5= 20

Give indications of 2 homoeopathic drugs in the following condition:

1. Gangrene
2. Haemorrhage
3. Keloids
4. Carbuncles
5. Dry gangrene

6. New growths
7. Senile Gangrene
8. Preoperative anxiety
9. Ganglion
10. Post Operative bleeding
11. Ulcers
12. Varicose Ulcer
13. Post operative infections
14. Burns
15. Fissure in ano
16. Bleeding per rectum
17. Strangulated hernia
18. Goitre
19. Orchitis
20. Ca stomach
21. U.Bladder calculi
22. Retention of urine
23. Mastitis
24. Injuries to bones
25. Ankle sprain
26. Calcaneal spur
27. Osteomyelitis
28. Episcleritis
29. Hypopion
30. Pterygium
31. Spring catarrh
32. Dacrocystitis
33. Cataract
34. Lachrymal fistula
35. Toothache
36. Dental fistula
37. Dental abscess
38. Dental caries
39. Pyorrhoea
40. Otitis media
41. Otorrhoea
42. Follicular tonsillitis
43. Pharyngitis
44. Ullergic rhinitis
45. Mastoiditis
46. Hardness of hearing
47. EYE - MERC, Phos

- 48. JOINTS-Bry, Actea, S, Rhus T
- 49. BONE- Sang C
- 50. THROAT-Arg-M, Lac-C,Mer,Caus

Q4] short answers – solve any 2 out of 4

2x10=20

- 1. PAIN IN SURGERY-Plantago
- 2. VARICOSE ULCER-Lach, Carb-V
- 3. DRY GANGRENE - Ars-A
- 4. MASTITIS -Lac-C, con, Bell
- 5. INTESTINAL OBSTRUCTION-Plb
- 6. RETENTION OF URINE-Arnica
- 7. BURNS-Canth, Apis, Caust
- 8. GASTRIC-Phos, Anacard, Nux V,
- 9. GUM BOIL-Plantago
- 10. FISSURE IN ANO-Nit-Ac
- 11. RENAL STONE-Berb-V
- 12. MASTOIDITIS-Caps
- 13. PLEURAL EFFUSION-Bry
- 14. OSTEOMYELITIS-Sil (chr.sinus of tibia)
- 15. DIABETIC RETINOPATHY-Phos
- 16. FROZEN SHOULDER-Sang-C
- 17. DENTAL ABSCESS-Hekla-L, Bell
- 18. GOITRE-Iod, Spongia
- 19. ALLERGIC RHINITIS-Nat-S,
- 20. CARBUNCLES-Lach, KaliBi
- 21. HAEMORRHAGES-phos, Collinsonia
- 22. ORCHITIS-Phos
- 23. TETANUS - Kali Bi
- 24. HOARSENESS OF VOICE-Caust
- 25. TOOTHACHE-Bell, Kreos
- 26. TEETH TROUBLE-Cham, Coff,
- 27. CATARACT-Phos, Calc Fl
- 28. NASAL POLYP-SangC, Nit ac
- 29. PAINS-Kreos, Staph,Phyt,Bell
- 30. POST OPERATIVE-Phos, Ars A.
- 31. EPISTAXIS-Lach, Ip, Phos
- 32. OTORRHOEA-KaliS
- 33. CORNEAL ULCER-Kali Bi, MercS

84] describe phyringitis in short with two homoeopathic drugs

85] Discuss cataract in short with one hom drug

86] Describe the aetiology, clinical features , of tonsillitis

87] discuss causes and investigations obstructive jaundice in short describe nux v

88] describe causes laryngitis ?explain ars alb for laryngitis

89] describe causes of glaucoma ?explain arg nit for it

90] ptregium in detail with 2 hom. drugs

91] ear pain with two hom. Drugs

92] hernia homoeopathic management in detail

93] hydrocele homoeopathic management in detail

Long answers [any one out of q no. 5 ,6,7

1x20=20

1. What is scope of homoeopathy in surgery and scope of surgery in homoeopathy How far do you think that surgery can be useful in homoeopathy.
2. Do you not think that surgery is not anti-homoeopathy? Justify the above statement with examples and name a few purely surgical cases
3. What is role of homoeopathy in surgery. Name a few so called surgical cases which can be successfully treated with homoeopathy. Give indications of 3 drugs in any one such condition
4. What is gangrene ? What are causes of gangrene & give indications of 3 drugs for dry gangrene.
5. Give signs and symptoms & causes of gangrene with indications of Ars Alb, Lach, Carb Veg in this condition
6. What are the causes of gangrene? Give indications of 2 homoeopathic drugs for each type of gangrene.
7. Define ulcers. What are the type of ulcers you know. Describe indications of Merc Sol, Kali Bi, Nit A in non-healing ulcers
8. Discuss how will you manage a case of 2nd degree burn with Homoeopathic drugs. What will you do to prevent the formation of Keloid?
9. Give the causes, classification, management & complications of burns & give indications of Canth, Caust, Ars Alb
10. A fat, fertile, female, above forty C/O pain in upper abdomen. Give the differential diagnosis with investigations & indications of Chel, Cheria, Carduus in this condition
11. A patient C/O pain in Rt. hypochondrium. Give differential diagnosis with their investigations & describe indications of 3 drugs for biliary colic
12. Discuss aetiology, signs and symptoms, investigations & homoeopathic treatment of cholecystitis
13. Give the differential diagnosis of conditions around peri-anal region. Give indications of 3 drugs for haemorrhage

14. Give signs and symptoms & differential diagnosis of a case of bleeding per rectum. How will you manage a case of 2nd degree piles with homoeopathic drugs
15. Enumerate different causes of bleeding per rectum. Give indications of 2 homoeopathic drugs for each condition mentioned
16. Give differential diagnosis of a case of bleeding per rectum. How will you investigate Give 3 drugs for fissure-in-ano
17. Describe the indications of four Homoeopathic drugs for the treatment of Piles.
18. How will you manage a case of fistula-in-ano homoeopathically
19. Discuss the differential diagnosis of swelling in midline of neck. Give indications of 2 homoeopathic drugs for different types of goitre
20. Give differential diagnosis of swelling in midline of neck. Give homoeopathic indications for any 3 drugs for toxic goitre
21. differential diagnosis of swelling in parotid region with indications of 3 drugs
22. Give aetiology, signs and symptoms, investigations & homoeopathic treatment of toxic goitre
23. How will you differentiate between fibro-adenosis & Ca of breast. Give 2 drugs with indications for each of these conditions
24. Give the differential diagnosis of a lump in breast & give indications of Lac C, Con, Phyt
25. Describe signs and symptoms, & homoeopathic treatment of acute appendicitis
26. A young recently married female C/O pain on right iliac fossa. Give its differential diagnosis. How will you manage a case of acute appendicitis with homoeopathic drugs
27. What are causes of colics ? How will investigate it? Give 3 drugs with indications for appendicular colic
28. What are causes of retention of urine. Discuss homoeopathic treatment of senile enlargement of prostate. Give indications of 3 drugs in any 1 such condition.
29. Give differential diagnosis of abdominal colic & describe symptoms & investigations of a case of renal colic. Give indications of 3 drugs for the same
30. Discuss signs and symptoms, investigations, aetiology & homoeopathic treatment of renal lithiasis
31. Describe the symptoms of Renal Colic. Give the indications of four homoeopathic drugs for the same. When will you refer the case to Surgeon?
32. Discuss signs and symptoms & miasmatic background of thoracic empyema & give 3 drugs for same
33. Give the classification of fractures & general line of treatment with indications of 3 drugs for fractures
34. Define fractures & state their types. Give manage & homoeopathic treatment.
35. Give classification of bone tumours & give in details aetiology, signs and symptoms & homoeopathic management with indications of 2 drugs
36. Name different bone conditions which could be successfully treated with homoeopathy. Give indications of 2 drugs in any of the above conditions
37. How do you differentiate between sprain & dislocation. Give indications of 3 drugs for sprain
38. Give aetiology, signs and symptoms, pathology of acute traumatic Osteomyelitis & its homoeopathic treatment

39. Give brief description of osteoarthritis & discuss 2 important nosodes used as constitutional drugs
40. Name some purely surgical conditions & give indications of 3 drugs for senile cataract
41. Give the indication of four homoeopathic drugs for the treatment of viral conjunctivitis
42. Name the different eye conditions with 3 drugs for each condition & give indications of 3 drugs for acute conjunctivitis
43. Give brief account of corneal ulcer & give 3 drugs for it
44. Give signs and symptoms, differential diagnosis & homoeopathic treatment viral conjunctivitis
45. Give differential diagnosis of pain in throat. Give indications of 3 drugs for acute pharyngitis
46. What is quinsy ? Differentiate it from acute tonsillitis. Give indications of 3 drugs for same
47. Give differential diagnosis of pain in throat. Give indications of 3 drugs for follicular tonsillitis
48. Describe the clinical features of quinsy & name a few drugs with indications for its treatment
49. Describe signs and symptoms of acute tonsillitis & outline its homoeopathic treatment. When will you refer a case to surgeon for operation
50. How would you manage a case of allergic rhinitis homoeopathically, with the indications of 6 homoeopathic drugs prescribed.
51. Discuss the causes of Epistaxis in a middle aged person. Stress usefulness of Ipec, Croc H, Teuc M
52. How would you manage a case of otitis media with the indications of the medicine prescribed.
53. A patient C/O offensive discharge from the ear. How will you manage this condition.
54. Describe clinical features, complications & homoeopathic treatment of acute mastoiditis

55] Define appendicitis . What are signs and symptoms of it and its complications? Describe bell for it

56] Define varicose vein and describe in detail ?with 2 hom, drugs

57] Discuss aetiology ,clinical feature , complication and investigation gangrene with 2 hom. Drugs?
